EXECUTIVE DIRECTIVE

NO:.....

The Timor-Leste Government has made significant progress in improving the country's core infrastructure in recent years. Continued investment in core and productive infrastructure is necessary to support a modern and productive country in which its people are connected with each other and with the world.

To improve accuracy in planning and development of core and productive infrastructure, a cost estimating manual and its associated unit cost standard are required.

It is in this context that I welcome the publication of the first edition of the TIMOR-LESTE STANDARD UNIT PRICE OF LABOR WAGES, MATERIAL AND EQUIPMENT RENTAL (hereafter "Unit Cost Standard") booklet by the National Development Agency of the Ministry of Planning and Strategic Investment (MPSI).

By the authority vested in me as the Minister of MPSI by the Constitution, I therefore direct the following:

1. All Ministries and autonomous agencies shall use the Unit Cost Standard as a guide in estimating project cost for planning and rationalization of infrastructure projects funded by the State Budget of Timor-Leste.
 2. That the Unit Cost Standard be updated annually.
 3. Violations of this directive must be reported to the Inspector General Office.
- Your cooperation in complying with this directive is appreciated.

Dili, October 2019

Minister ad-intrim of Planning and Estrategic Investment

H.E. Hermenegildo Augusto Cabral Pereira

Bedik-Hun, Fatuhada

VIII GOVERNO CONSTITUCIONAL
MINISTÉRIO DO PLANEAMENTO E
INVESTIMENTO ESTRATÉGICO

Agência de
Desenvolvimento
Nacional

General Director of ADN

A central pillar of the Strategic Development Plan 2011-2030 is the building and maintenance of core and productive infrastructure. While good national infrastructure is essential to Timor-Leste being able to develop economically and socially, the scale and cost of addressing this challenge is large and ongoing.

To meet this challenge, a manual is required to provide guidance on rules and standards for the preparation of cost estimates in support of all infrastructure projects.

Following the introduction of the TL-SMM in 2015, and its second edition soon after, the Ministry of Public Works and the Ministry of Planning and Strategic Investment have received numerous inputs and suggestions which in principle highlighted the need for a Unit Cost Standard for labor, material and equipment rental.

It is the recognition of this gap that has resulted in the publication of this booklet named TIMOR-LESTE STANDARD UNIT PRICE OF LABOR WAGES, MATERIAL AND EQUIPMENT RENTAL, referred to as TL-SP 2019.

TL-SP2019 is a manual that can serve as guide in calculating cost of infrastructure project in Timor-Leste. It is published as a supplement to other documents that have been in effect in other ministries such as standard specification, Standard Bill of Quantity, Unit Price etc. We hope that most, if not all, of our problems related to project costing in Timor-Leste can be addressed through this standard price document.

We would like to acknowledge the contributions of the National Development Agency in producing this booklet.

We hope governments and industry will find it a useful resource for future infrastructure projects.

Dili, October 2019

Samuel Marçal
General Director - ADN
